

# Applauding the 2014 American Nurses Foundation Scholars

The American Nurses Foundation applauds the 2014 Nursing Research Grants (NRG) recipients. This year, the Foundation awarded over \$247,400, a 33% increase over 2013. A new focus on clinical researchers at Magnet and non-Magnet facilities was added in 2014 with support from the American Nurses Credentialing Center. The American Nurses Foundation is grateful for the generosity of supporters over the last 59 years who have made it possible to award over \$4 million to more than 1,000 beginning and experienced nurse researchers.
